SUMMARY

Full Stack Developer and AI Specialist with over 3 years of experience building scalable web applications and AI-driven solutions. Skilled in optimizing performance, enhancing UX, and deploying LLM-driven applications on cloud platforms.

SKILLS

Programming Languages: JavaScript, TypeScript, Java, Python
Web Development: React, Angular, Next.js, Node.js, Spring Boot, HTML5, CSS3, Tailwind CSS, Bootstrap
AI & Machine Learning: ChatGPT, Anthropic (Claude), Stable Diffusion, Krea AI, Leonardo AI, Flux
Databases & Cloud: MySQL, MongoDB, SQL Server, Google Cloud Platform, DigitalOcean, Azure, Docker
Tools & Others: Git,Windsurf, Cursor, GitHub Copilot, Firecrawl/Jina, UI/UX Design, Technical Writing

EXPERIENCE

Administrator & Content Creator – w404.net   06/2024 – Present

- Led development and optimization of w404.net, growing traffic from 5,000 to 15,000+ monthly visits in six months through AI-driven tech content.
- Architected the platform using Next.js, Spring Boot, and MySQL; deployed on DigitalOcean with 99.9% uptime.
- Reduced load times by 30% and improved UX scores by 15% through performance enhancements.

Freelance Full Stack Developer & AI Consultant – Self-Employed   06/2022 – Present

- Developed AI-integrated web applications (chatbots, recommendation systems), increasing client engagement by 30% within three months.
- Consulted on AI adoption, helping clients deploy solutions on GCP and DigitalOcean with 99.9% uptime.
- Conducted workshops on Stable Diffusion and GitHub Copilot for development teams.

Co-founder & Admin – Nghiện AI Facebook Group   11/2024 – Present

- Co-founded and led "Nghiện AI," scaling the community to 200,000+ members.
- Planned and executed knowledge-sharing events, webinars, and live Q&A sessions.
- Managed a team of moderators to ensure a collaborative and inclusive environment.

PROJECTS

w404.net (w404.net)

- Developed a full-stack site with a Next.js front-end and Spring Boot REST API connected to MySQL.
- Deployed both app and database on a Linux Droplet in DigitalOcean, running Next.js under PM2 and fronted by Nginx with HTTPS, sustaining 99.9 % uptime.
- Integrated MailerSend for transactional emails (sign-in, reset password), achieving a 98 % deliverability rate.

Chat Box (AI Browser Extension)

- Created an open-source Chrome extension that integrates AI chat, advanced web search, and document interaction in a convenient sidebar.
- Built with React, Webpack, Tailwind CSS & Shadcn UI; supports multiple AI providers (OpenAI, Claude, Groq) and local LLMs via Ollama.
- Implemented custom prompts, contextual text selection, YouTube summarization, and document chat features, boosting user productivity.

CERTIFICATIONS

- Google Cloud Associate Cloud Engineer – 2023
- Oracle Certified Professional: Java SE Programmer – 2022

LANGUAGES

- Vietnamese: Native
- English: Professional working proficiency (Reading/Writing: Advanced, Speaking: Intermediate)

INTERESTS & HOBBIES

- Advancing local AI models for text and image generation
- Exploring practical applications of LLMs in backend systems
- Studying advanced software architecture patterns for scalable applications
- Listen music and read novel
